

Leaders Academic Consultation: Biomass Resources

Date: Wednesday 27th September 2017

Time: 12:30 – 16:15

Location: Oriel College, Oxford OX1 4EW

Background:

The Supergen Bioenergy Hub led by Prof. Patricia Thornley from The University of Manchester is currently undergoing a consultation period to establish the research priorities that the new Hub will address and to identify appropriate research partners and stakeholders.

Aim of the event:

This workshop will focus on research priorities in biomass resources and production. It will particularly look at the role of blue-skies and fundamental research in the bioenergy sector.

To register for this free event please visit [Oxford: Biomass Resources](#)

12:30	Lunch and registration
13:15	Introduction (Prof. Patricia Thornley) and icebreaker
13:45	Session 1: Big Burning Questions
14:10	Session 2: Shaping the questions
14:35	Break
14:55	Session 3: Refining the questions
15:30	Feedback and group discussion
16:15	Event ends

Hub Leaders Consultation

The Supergen Bioenergy Hub led by Prof. Patricia Thornley from The University of Manchester is currently undergoing a consultation period to establish the research priorities that the new Hub will address and to identify appropriate research partners and stakeholders.

If you would like to get involved in helping shape this exciting new opportunity you would be very welcome to attend one of our free consultation events. Each event has a slightly different technical focus and will also explore different functions of the new Hub. The events cover a wide geographical area and remote access will be available for those who cannot physically attend.

To register for these free events please click on the theme link below or visit
